THIS JUST IN!

Hey Sonic-freaks.

It's "Freak Numero Uno" here. I'm sure many of you have questions about Knuckles and his "death." Please send in your comments and questions about it... we'd like to know. However, you should know that this does not mean the end of Knuckles' stories. In fact this is only the beginning (-insert maniacal laughter here-).

On to other matters; We have so many of your letters that I decided not to irk you with my editorial this issue (I have many more issues to do that-insert more maniacal laughter here-), and decided it would be more appropriate to give up some of my space for you... so take it away.

Until next month, May The Hog Be With You! **JG**

Dear Sonic-Grams,
I just received issue #114. I loved it. The cover was really cool. I knew right away that it was a spoof on Star Wars Episode II. Looking through the comic I prefer the work of J. Axer. I like the drawings because they look like the video game graphics. I can't wait until the next issue! I'm looking forward to reading part 2 of the Knuckles comic. NICK PAUQUETTE

Hey, Nick. Just wanted to say thanks for the compliment on the cover, however, you should know it is not a spoof of Attack of the Clones but rather an homage to it. In fact, I just got the DVD of Episode 2 yesterday, and it was great. By the way, if you guys have the DVD of both Episode 1 & 2 and you don't know how to access the secret bloopers, do the following: Play disc 1, go to options, then press 11 on your remote and press enter, (pause) then 3, then enter, (pause) then 8, then enter. The DVD credits begin with some great bloopers. Check it out...

it's a riot. In case you're wondering why those numbers, they stand for THX 1138, Mr. Lucas' first professional movie.

Dear Sonic Crew,

I have been a huge fan of yours for several years now, ever since I chanced upon an issue of Sonic at a grocery store. Since then I have become hooked, and I have been reading it ever since. I am fourteen now and I love reading series like Aliens, Gambit, and Godzilla, but I still have more Sonic comics than the rest combined!!!

I just finished reading issue 114, and I noticed that recently a lot of people have been commenting on which kind of style you should use in the series. Personally, I favor the idea of using anime, because I think it has a lot more visual appeal, and Sonic has his roots in the Japanese games. Another good reason to use an anime style is it would definitely be more appealing to kids my age (13,14,15). Something about the renderings is an anime series really catch our eye and make everything seem more realistic, while at the same time maintaining the exaggerated eyes, weird hairs, and ridiculous expressions that make it a cartoon.

One thing that has really been bothering me is the stories and their lengths. I think a perfect example is issue 110. The whole concept of a nuclear missile crashing into the city was genius. However, having it take place over the span of just a handful of pages was not. It seems that you guys are really making these stories short. I have never worked on a comic book before, so I am not sure what kind of restrictions you have to get a story done in a certain space, but I am sure that a whole mess o' people would agree with me in saying that we would like longer stories. You guys should keep the Knuckles stories simply because those are real important and very cool.

In issue 114, you had the eleven page main story, which was very well done, but I felt it all happened too quickly. For instance, once Sonic and Tails had arrived in the cave where the true Tails was, Mammoth appears, tells how he was freed, and that he was "returned to prominence". By saying this, I assumed he was at full power and was going to kick the snout out of Sonic and Tails. However, they managed to break his concentration, and then he disappeared. A lot of things should have been explained better there. Like why exactly does he need Tails? Also: why were Sonic and Tails able to compete with Mammoth when last time they fought, it took Super Sonic, Hyper Knuckles, Turbo Tails, and the Chaos Siphon to trap him in the master emerald? Anyway, getting back to my main point, you could easily have explained all of this and given the story more action, and more emotion at finding out that this Tails we had been reading about for a little while was simply a clone that now ceased to exist.

Well, if you have actually read this far, kudos to you! (and not the warlord -snicker-) I am, and always will be, a true blue fan through and through.
Tom HANATT (14, Hopkinton, N.H.)

This is a very good letter, Tom, in terms of wanting to know why the stories are the length that they are. So far, it seems the majority (over 75%) want the short stories - in addition to the main Sonic feature and the Knuckles back-up - simply because it's the only way they're going to get to see characters they don't get enough of in the other stories. It also gives us more stories drawn by their favorite artists

more often. As to your specific questions about #114, Mammoth used Turbo Tails' power to not only make a facsimile of Tails (so no one would miss him) but gave him back his own body. However, the effects were temporary at best. That is why he would return in a weakened state to replenish himself with Turbo Tails' energies. Mammoth Mogul no longer harnesses the extreme power he had when he was Master Mogul. Most of that power stayed with the Master Emerald that currently keeps Angel Island afloat. He disappeared because Mammoth knew he could not last in his weakened state and decided to flee and fight another day... and you know where he went — to get a better power source to steal from... Knuckles himself. And you know how that went as of this issue. Thanks for sharing your thoughts and being a true blue fan. Ken wants to take over the rest of the letters so here he is...

Dear Sonic & Co.

S'up cool cats, just writing to tell ya'll you're doing a great job these days. I love the drama as much as the action; you've taken this from a children's book to something even adults can enjoy. So far I gotta say there's nothing wrong, but I read online that Sally was going to buy it, but Sega had other ideas. Why kill her, as she's what makes Sonic really interesting? I mean she's a princess, she's smart, she's a looker and a keen sly mind for battle. Besides, she's a whole lot better than Mina, and Amy... um, I like Amy, but she's just not right for him... why not hook Tails and Amy up? Oh I got a few questions. (1) Is it true there's a special coming out based twenty years from the current comic? If so, it's gonna rock! (2) Will Jani-ca... or is it Lara-su... be coming back? She rocked! (3) If I had a cool story for you and you guys liked it, would you print it? (4) Any chance of a "Chronicles" comic coming out... you know a book containing stories about other characters... because this three in one book thing is just making the sonic stories too short.

Well I gotta go, I know you won't print this, so please... just read it. I've been a fan since #40 came out, stay cool, and keep chugging those chili dogs guys.
YER BIGGEST FAN, DARWIN SUNUNG

Guess we sure fooled you, Darwin, though you narrowly made it, as we tend to prefer our letter writers expressing more of their opinions regarding the latest issue. Regarding your questions...

1. There was such a story at one time in the planning stages, and the characters and concepts featured in that story may yet show up somewhere down the line in a future issue.

2. If we ever get around to working on stories set twenty years in the future, then yes, Lara-Su will be featured once again, as she proved to be quite the fan favorite.

3. Unfortunately, no. For one thing, we work far ahead of schedule, so for anyone to try to

submit anything would have a difficult time without being aware of what we're working on already. For another, considering how many readers try to submit ideas, I'd hate to pick one person's and not be able to select another's.

4. It's a great idea, but while there aren't any plans for such a project at this time, but who's to say somewhere down the line things could change? Stranger things have been known to happen.

To the Sonic folks at Archie:

I've just finished reading Sonic #s 50, 100, and 109-115. I had read a about a dozen other issues between #25 and #40 many years ago, and I must say that the book just keeps getting better and better! I have a few comments and questions though: 1) Shadow and Rouge are going to be in upcoming stories; will they be regular characters, or are these one-time special appearances? 2) Eggman was destroyed in issue #110, and I know he's getting a new body, but will it be anything like the Eggman/Wobotnik we've previously seen? I mean, the Eggman body is quite a departure from of blubber bottom's real body. 3) I also noticed that some of the panels in the recent Knuckles stories appear to have been not just inked, but penciled by Ken. I can tell his style apart from Dawn Best's, especially the way the eyes and mouth are drawn. 4) Who or what is Many Hands? 5) Was Amy Rose's return to Knothole noticed by anybody? It seemed rather odd that no one even said, "Welcome back!" 6) Where has Mina the Mongoose disappeared to? She wasn't even part of the group in #114's "Houng at Heart". These are just a few thoughts, not really criticisms. Can't wait for next ish!

CARLOS DASHUA, A.K.A. "THE EGGMAN"

We've been getting so many letters about Shadow and Rouge that we felt this deserved an answer. For the time being, Shadow and Rouge will not be regular characters, but featured players whenever a story requires their presence. Of course that may change... As for Eggman's appearance, while we may play with the character a bit, we won't be pulling a green Knuckles with him. For my money, what's really amazing is your sharp eye when it comes to art. Dawn was having college exams that week while working on the story, so I told her to send me the pages as is and I'd finish them up. As it was, the pages were pretty much complete, but the perfectionist in me couldn't resist making changes where I felt it was warranted. Which brings us to Many Hands, a gremlin we let out of the closet whenever we need an extra pair of hands to help us out of a jam. They would've said hello, if they weren't busy trying to stop her cousin, Rob O'The Hedge, from attacking Antoine's father. As for Mina, she's around, but was just playing hooky that day.

See you next month.
